

55 YEARS AND COUNTING

Servicing and Installing Pedestrian Doors in Oklahoma!

1966 - 2021

Manual Door and Hardware Installation |

Novalco is committed to enhancing the level of service for our customers and is now offering manual door and hardware installation out of our Oklahoma City office. Installation and service on Hollow metal doors and frames, fire doors, wood doors, electrified and manual door hardware. Call or email us today to find out how we can help simplify your door replacement projects and be your one-stop shop.

Optimization of service |

In order to improve our customers experience, we have also added iPads so our field technicians are able to go “paperless”, process information faster and gives us real time support when needed. Our Door Identity Program is simplifying how your doors are fixed, and offers less “down” time when they are broken. We realize the importance of having well- functioning and safe doors in your facilities and are implementing new ways to simplify getting your doors fixed. Call or email us today to find out more!
